Part of Reed International Books

Articles

A bounding method for predicting the fatigue of plain and autofrettaged thick-walled cylinders
D.W.A. Rees 59

A characteristic fatigue parameter for notched composites
S. Kellas, J. Morton and P.T. Curtis 35

Advanced fatigue reliability analysis
P.H. Wirsching, T.Y. Torng and W.S. Martin 389

A micromechanics model for composites under fatigue loading
K.L. Reifsnider and Zhanjun Gao 149

A modified rainflow counting method
Nie Hong 465

An analytical solution for fast fatigue assessment under wide-band random loading
C.L. Chow and D.L. Li 395

Analysis and calculation of fatigue loading of machine tool gears
Jia Yazhou 483

A new evaluation procedure for crack closure
Dao-Lun Chen, B. Weiss and R. Stickler 327

A new formula for estimating fatigue crack propagation rates
Zhao Xiaopeng 341

A unified procedure and methodology for generating sea state sequences from global-wave statistics
C.L. Chow and D.L. Li 17

An unsuitable residual stress state in train springs originated by shot peening
F. Artaraz and S. Sánchez Beitia 165

Bending fatigue in high-strength fibre ropes
R.E. Hobbs and C.J. Burgoyne 174

Compression fatigue behaviour of notched carbon fibre–epoxy laminates
C. Soutis, N.A. Fleck and P.A. Smith 303

Crack arrest behaviour and a proposed model
X.D. Zhang and Y.J. Song 411

Crack closure induced by corrosion products and its effect in corrosion fatigue
Xing Zhiquiang, Song Yujiu and Tu Mingjing 69

Cyclic stress–strain curve evaluation using incremental step test procedure
J. Polák and M. Hájek 216

Effect of strain rate on the fatigue cavitation during continuous cycling of 12% Cr–Mo–V steel at 600 °C
S.C. Lee and S.W. Nam 79

Effect of weld process on early growth of fatigue cracks in steel T joints
J.L. Otegui, U.H. Mohaupt and D.J. Burns 45

Effects of mean stress on fatigue behaviour of a hardened carbon steel
T. Wehner and A. Fatemi 241

Effects of temperature on the low cycle fatigue behaviour of nitrogen alloyed type 316L stainless steel
V.S. Srinivasan, R. Sandhya, K. Bhanu Sankara Rao, S.L. Mannan and K.S. Raghavan 471

Engineering analysis of notch root fatigue crack growth under spectrum loading
R. Sunder 249

Estimation of Paris–Erdogan law parameters and the influence of environmental factors on crack growth
M. Newby 291

Experimental investigation of fatigue damage accumulation in 1100 Al alloy
Ömer G. Bilir 3

Explanation of the observed decrease in fatigue crack growth rate in Al 2024 under constant-ΔK loading using crack resistance models
J. Zuidema 73

Fatigue crack initiation and stage-I propagation in polycrystalline materials. I: Micromechanisms
J.W. Provan and Z.H. Zhai 99

Fatigue crack initiation and stage-I propagation in polycrystalline materials. II. Modelling
J.W. Provan and Z.H. Zhai 110

Fatigue failure criterion based on plastic strain energy density applied to welds
Jerzy Dziubiński 223

Fatigue life of welded plate T joints under variable-amplitude loading
R. Bouchard, O. Vosikovsky and A. Rivard 7

Fatigue models for Al alloys
M. Cavallini and F. Iacoviello 442

Fatigue monitoring by laser speckle
Y.Z. Dai, A. Kato and F.P. Chiang 227

Fatigue crack initiation and stage-I propagation in polycrystalline materials. II. Modelling
J.W. Provan and Z.H. Zhai 110

Fatigue failure criterion based on plastic strain energy density applied to welds
Jerzy Dziubiński 223

Fatigue life of welded plate T joints under variable-amplitude loading
R. Bouchard, O. Vosikovsky and A. Rivard 7

Fatigue models for Al alloys
M. Cavallini and F. Iacoviello 442

Fatigue monitoring by laser speckle
Y.Z. Dai, A. Kato and F.P. Chiang 227

Fatigue thresholds under mixed-mode (I+III) loading
J.R. Yates 383
Fracture analysis on compressor blades
Jifeng Tian, Xingzhi Liu and Shizhong Chen 333
Fractographic observations and predictions on fatigue crack growth in an aluminium alloy under miniTWIST flight-simulation loading
J. Siegl, J. Schijve and U.H. Padmadinata 139
Growth of short cracks in a notch plastic zone
J.G. Mercer and T. Nicholas 263
Hydrogen embrittlement contributions to fatigue crack growth in a structural steel
P.J. Cotterill and J.E. King 447
Influence of misalignment on the fatigue strength of butt welds
J.M. Ferreira and C.M. Branco 405
Markov modelling of the fatigue damage in welded structures under in-service inspection
Tom Lassen 417
Modelling of fatigue crack growth following overloads
H.J.C. Voorwald, M.A.S. Torres and C.C.E. Pinto Júnior 423
Nucleation and growth of small surface cracks in aluminium alloy AMg6 as related to discontinuity of the fatigue curve
N.M. Grinberg, V.A. Serdyuk, A.M. Gavrilyako, D.V. Lychagin and E.V. Kozlov 370
Quantitative evaluation of effects of shape and size of artificially introduced alumina particles on the fatigue strength of 1.5Ni–Cr–Mo (En 24) steel
Y. Murakami, K. Kawakami and W.E. Duckworth 489
Relating closure development in long cracks to the short-crack regime
M.N. James and R.E. Garz 169
Shape optimization of a rubber bearing
C. Mattheck and D. Erb 206
Short-fatigue-crack growth in a nickel-base superalloy at room and elevated temperature
J.C. Healy, W. Grabowski and C.J. Beevers 133
Some aspects of corner fatigue crack growth from holes
C.S. Shin 233
Some observations on the cyclic unloading effects of a fatigue crack
D. Damri 271
Surface integrity and its effects on the fatigue life of the nickel-based superalloy GH33A
Qi Huang and Jing Xin Ren 322
Temperature and humidity effects on fatigue life distribution of carbon steel
T. Sakai, M. Ramulu and M. Suzuki 117
Tensile fatigue mechanisms in unidirectional polymer matrix composite materials
P.T. Curtis 377
Time-dependent fatigue failure: the creep–fatigue interaction
F. Ellyin and Y. Asada 157
The contact fatigue of large rolling bodies
B.A. Morozov, V.T. Firsov, V.K. Shashkin, I.I. Karpukhin and A.V. Shirjev 461
The effect of load ratio on the m-ln$C$ relationship
A. Iost 25
The effects of overloads in fatigue crack growth
R.L. Carlson, G.A. Kardomateas and P.R. Bates 453
The fatigue behaviour of orthotropic laminates under tension–compression loading
A. Rotem 209
The influence of hammer peening on fatigue in high-strength steel
I.E. Kopsov 479
The influence of porosity on short fatigue crack growth at large strain amplitudes
D.A. Gerard and D.A. Koss 345
The low-cycle fatigue and cyclic fracture behaviour of 7150 aluminium alloy
T.S. Srivatsan 313
The maintenance economy and economic life of structures
Chen Chuan-Yao and Chen You-Ping 337
Using vehicle dynamics simulations and finite-element results to generate fatigue life contours for chassis components
F.A. Conle and C.W. Mousseau 195
Wire recovery length in a helical strand under axial-fatigue loading
M. Raoof 127
